Enthusiastic Junior Full Stack Web developer eager to contribute to team success through hard work, attention to detail, excellent organizational skills, creativity & innovation. Clear understanding of Front-End and Back-End technologies. Recently received a Certificate in Full Stack web development from the University of California, Berkeley.

TECHNICAL SKILLS

Front-End: HTML, CSS, JS, React

Back-End: Node.js, express, NPM.

UI/Framework: jQuery, Bootstrap, Material - UI

Databases: MongoDB, MySQL.

Hosting/Deploying: Github, Heroku.

Concepts: Git, MVC, RESTful API, JavaScript(ES6+), AJAX, Axios, Jira,Zeplin.

Work History

Intern as a Software developer, 01/2021 to Current

Playdigo Inc. – Israel

Developing scalable and modern components using Material-UI as a framework, CSS, HTML5 and modern JavaScript (ES6) using both react version (react hooks and react class components). Collaborate with team members using Git commands. Working with Agile methodology. Succeeded to be on time with very tight deadlines, by being efficient and prioritize my assignments.

Administration and Information Technology Technical Support, 12/2017 to 06/2021

Consulate General of Israel – San Francisco, CA

Representing Israel's interest and serving as a liaison to the Information Technology Support in the Pacific North West. Delivered onsite technical support 3x a week, resolving technical issues and maintaining a stable work environment. Collaborated with vendors outside my company to locate and resolve advanced problems by collaborating together to ensure reliable operation of the company.
